## Your Rising Sign & Personality Mask

Your Ascendant (also known as your Rising sign) is the first impression others have of you, before getting to know the 'real' you. Becoming acquainted with one's Rising Sign (which is only possible if your exact time of birth is known), can help you figure out what your soul is drawn to, and it also reveals ways you may feel 'seen' by others, and by the world. With Pisces as your Rising sign, you emanate a dreamy, ethereal vibe. People often see you as kind, gentle, and a little bit otherworldly. You have a natural empathy that makes you highly attuned to the feelings of those around you—sometimes to your own detriment. It's easy for you to absorb emotions like a sponge, and you might find yourself retreating into fantasy as a form of escape. Your lesson is to find grounding practices that help you stay present in reality. You are here to bring dreams into the real world, but you can only do that by keeping one foot on solid ground. Balance your intuition with action, and you'll find that the magic you seek is already within you.
